

ASA STARS National Tour

All ASA STARS National Tour Teams.

May 11, 2023

Rulebook clarification. It has come to our attention that there was a clerical error on the website posting of the 2023 ASA STARS National Tour Rule Book on the bottom of page 2 "Specific _____ Rules Section. This area is a place to define specific rules to an individual series. In this error the Championship Racing Association (CRA) guidelines were listed instead of the ASA National Tour. In this, additional carburetors were listed that were not included in the ASA STARS National Tour.

Because of this we will honor the listed carburetors through May 31, 2023. The listed carburetors are as follows: Rule 3. Where a 750 carb is allowed for use, a team may also use a series gauge-legal 650, 390 or 500 2bbl. 9 to 1's may also use the 500 2bbl.
